

ÖSEL®

Osel Devices Limited

Company Overview

At Ösel Devices Limited, we are dedicated to driving innovation and excellence in technology. Our commitment to quality, sustainability, and customer satisfaction positions us as a leader in the industry, delivering cutting-edge solutions that transform everyday experiences. At Ösel, we believe that everyone deserves to experience the joy of hearing and communication, regardless of their hearing abilities.

Our Mission

Our mission is to harness the power of technology to create solutions that enhance connectivity, efficiency, and quality of life. We envision a future where our innovations drive progress and make a positive impact on the world. Our mission is to provide accessible, high-quality hearing solutions that not only restore hearing but also enrich lives. With a diverse range of cutting-edge products and a team of expert audiologists, we're here to help you hear better and live better.

- **Our Innovation** - We embrace innovation as the driving force behind progress, constantly seeking new ways to push the boundaries of what's possible and create transformative solutions. At Ösel, we believe in taking a holistic approach to auditory wellness.
- **Our Values** - Integrity, compassion, and innovation are at the core of everything we do at Ösel. We're committed to upholding the highest ethical standards in our interactions. And we continuously strive to push the boundaries of technology and research to deliver innovative solutions that meet the evolving needs.
- **Our Commitment** - At Ösel, our commitment to excellence extends beyond the products and services we offer. We're dedicated to making a meaningful impact on the lives of individuals with hearing loss and the communities we serve.

Our Founders

Ravi Mishra

Ravi Mishra serves as the Chairman and Managing Director, with over 20 years of business acumen embodying exceptional leadership qualities and a profound understanding of global business dynamics. Guiding Principles

Innovation

We embrace innovation as the driving force behind progress, constantly seeking new ways to push the boundaries of what's possible and create transformative solutions.

Sustainability

We are committed to sustainability and environmental responsibility, minimizing our environmental footprint and promoting a greener, more sustainable future.

Quality

We are committed to delivering products and services of the highest quality, built on a foundation of reliability, durability, and performance excellence.

Customer Satisfaction

We prioritize customer satisfaction above all else, striving to exceed our customers' expectations by delivering exceptional products, services, and support.

Integrity

We conduct business with honesty, integrity, and transparency, fostering trust and building lasting relationships with our customers, partners, and stakeholders.

ÖSEL®

Manufacturing Plant

Our manufacturing facility in Greater Noida is a testament to our commitment to quality and precision. Equipped with the latest technology and adhering to rigorous quality control standards, our plant can produce a wide range of high-performance components and systems. This vertical integration ensures consistency and excellence in every product we deliver. The Greater Noida manufacturing plant is equipped with:

- **Modern Equipment:** Utilizing advanced machinery and technology to ensure high precision and quality in manufacturing both LED digital screens and hearing aids.
- **Quality Control:** Implementing stringent quality control measures to maintain high standards and ensure reliability and durability of the products.
- **Sustainable Practices:** Adopting eco-friendly manufacturing processes and materials to minimize environmental impact.

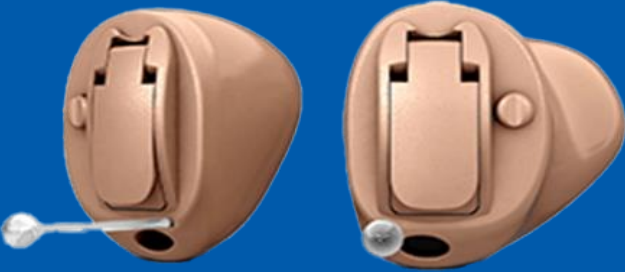

Hearing Aids

At Ösel, we understand the importance of clear, crisp sound and the impact it has on your daily life. That's why our hearing aids are engineered with cutting-edge technology and tailored to your unique needs. It enhances your auditory experience, improve communication, and reconnect you with the world around you.

- **Advanced Audio Processing:** Developing hearing aids with cutting-edge audio processing capabilities to improve sound clarity and user experience.
- **Comfort and Fit:** Designing hearing aids that are comfortable and easy to wear for extended periods. This includes ergonomic designs and the use of hypoallergenic materials.
- **Battery Life and Efficiency:** Creating energy-efficient hearing aids with longer battery life, using advanced power management techniques and rechargeable battery solutions.

Types of Hearing Aids

Behind-the-Ear (BTE)	In-the-Ear (ITE)	Completely-in-the-Canal (CIC)
		
<p>BTE hearing aids sit comfortably behind the ear and are suitable for individuals with mild to profound hearing loss. They come in various sizes and styles to accommodate different preferences and levels of hearing loss.</p>	<p>ITE hearing aids are custom-made to fit inside the outer ear. They are less visible than BTE devices and are suitable for individuals with mild to severe hearing loss.</p>	<p>CIC hearing aids are custom-made to fit entirely inside the ear canal, making them nearly invisible. They offer natural sound quality and are suitable for mild to moderate hearing loss.</p>

Types of Hearing Aids

Invisible-in-the-Canal (IIC)	Receiver-in-Canal (RIC)	In-the-Canal (ITC)
		
<p>IIC hearing aids are the smallest and most discreet type, fitting deep inside the ear canal where they are virtually invisible. They are custom-made to each individual's ear shape and suitable for mild to moderate hearing loss.</p>	<p>RIC hearing aids have a small casing behind the ear connected to the ear canal by a thin wire or tube. The receiver (speaker) sits inside the ear canal, providing improved sound quality and comfort. They are suitable for mild to severe hearing loss.</p>	<p>ITC hearing aids are smaller than BTE devices and fit partially in the ear canal. They are less visible and offer improved sound quality for individuals with mild to moderate hearing loss.</p>

Innovation & Technology

At Ösel, innovation and technology is at the core of everything we do. We are dedicated to pushing boundaries, exploring new possibilities, and revolutionizing industries with our cutting-edge technology solutions. Our commitment to innovation, research and development drives us to continuously evolve and adapt, ensuring that we stay ahead of the curve and deliver transformative products and services that exceed expectations.

Research & Development

Ösel Devices Limited is at the forefront of innovation, driven by a robust Research and Development (R&D) division that continuously strives to push the boundaries of technology. Our dedication to Research and Development is the driving force behind our innovation and technological advancements. By continually investing in R&D, we ensure that our products remain at the forefront of the industry, delivering unparalleled performance, reliability, and user satisfaction.
